PRESIDENT'S WELCOME LETTER

Dear friends and colleagues,

It is my privilege and honor as the President of the Bosnian-Herzegovinian—American Academy of Arts and Sciences (BHAAAS) to welcome you to one of the largest scientific meeting in the Balkans, the 10th Days of BHAAAS in Bosnia and Herzegovina at Jahorina, on June 20 –24, 2018. The scientific program of the conference will commence on Thursday, June 21, with the exceptional Opening Plenary Session, and I hope to see you all there.

BHAAAS is unique in its approach of encouraging a dialogue between academics, artists, professionals, and researchers from Bosnia and Herzegovina and its diaspora in the North America and worldwide. This idea has now grown to include the entire Balkan region and its scientific and cultural diaspora and friends worldwide.

The Days of BHAAAS in B&H has grown to an important and regionally recognizable event with outstanding scientific and cultural program. The 10th Days is no exception, and will in fact be our largest event to date. We will welcome over 375 presenters from over 24 countries, keynote speeches from internationally renowned scientists who are leaders in their fields, panel discussions, and a rich artistic and cultural program with numerous networking opportunities.

With over a thousand of attendees expected, the 10th Days will truly be an interdisciplinary and transdisciplinary event. We additionally hope to make the conference particularly educational and inspiring for young scientists who will have an opportunity to present their work and interact with leading figures in their fields. I encourage these young experts, as well as participants at every stage of their careers, to get involved with our organization and help shape the future Days and the BHAAAS.

The 10th Days organizing committee, whose passionate and committed members come from all different fields, gave so much of their time, attention, and expertise in order to bring such an impressive program to fruition. The Gala Dinner, taking place Saturday night, is our chance to thank all of those whose hard work and dedication will have made yet another Days of BHAAAS in B&H a success. I hope you are all able to join us!

Sincerely,

A handwritten signature in blue ink, which appears to read 'Nirvana Pistoljevic'.
